SUBJECT:

DOCKET NO. 2000-366-A – Chem-Nuclear Systems, LLC – Application for Adjustment in the Levels of Allowable Costs and for Identification of Allowable Costs for Fiscal Year 2004-2005. Discuss this matter with the Commission.

COMMISSION ACTION:

Move that the Commission accept the settlement agreement entered into between Chem-Nuclear Systems, LLC and the Office of Regulatory Staff in which they agreed that ORS would accept Chem-Nuclear's proposal to identify \$892,551 as the allocated Corporate General and Administrative expense for fiscal year ending June 30, 2004.

The agreement also specified that Chem-Nuclear would accept the proposal of the ORS to treat the costs for site modification for the construction of the "Western Swale Project" as a capitalized expenditure for the purposes of determining depreciation as an allowable cost. The useful life of the Western Swale project will be a three year period beginning July 1, 2005 and ending June 30, 2008.

Further move that the Commission accept the Allowable Costs of \$9,819,677 identified in the Joint Proposed Order of the ORS and Chem-Nuclear in Appendix A as being the costs to be allowed for recovery by the Company for its Fiscal Year Ending June 30, 2004. The \$9,819,677 consists of Fixed Costs of \$7,081,797, Variable Costs of \$1,841,260, and Irregular costs of \$896,620.

Further move that the Commission accept and identify as allowable costs for the Fiscal Year Ending June 30, 2005 the fixed costs of \$7,249,023 and irregular costs of \$230,000 as contained in Appendix B of the joint proposed order.

Further move that the Commission approve the variable cost rates for fiscal year 2004-2005 as contained in Appendix B of the Joint Proposed Order. The actual expense in the variable cost category will be dependent on actual volumes and classes of waste received.

PRESIDING Mitchell
